

The smart way to clean floors

The BA/CA 410 scrubber/dryer represents the best in floor cleaning design. It is compact, but with its 43 cm scrubbing deck, has all the features normally associated with larger machines. It can handle all types of floors and is even capable of tackling stripping tasks. ECO Solution as standard.

The BA/CA 410 is a compact machine with big equipment features. Easy to handle, economically priced unit can clean at a rate of 1.720 m² per hour.

Plus, because of the detailed attention we give to ergonomics, it can produce this kind of high productivity without creating operator fatigue.

The machine is supplied with either mains cable or battery drive power. The battery version comes fully fitted with batteries, an onboard battery charger and cleaning brush, and is ready-to-use without the need for costly extras.

Both versions feature the ECO water and chemical saving concept and are suited to a wide variety of institutional or commercial applications.

PRODUCT FACTS

- Easy to use, simple to maintain and productivity of 1.720 m² per hour
- A built in hook permits to store the brush in front of the machine
- A special wheel protects the brush during parking and ensures an easy transportation
- Removable recovery tank for easy cleaning, and for full access to batteries and main components
- Some battery versions come fully fitted & ready to go
