

BREAKAWAY

DEGREASER FOR FOOD INDUSTRY APPLICATIONS

BREAKAWAY is a powerful water-based foaming cleanser, ideally suited for greasy and fatty soil removal of walls, floors and equipment used in the food, meat, fish, poultry and dairy industries. It is particularly effective on protein build-up.

BREAKAWAY is extremely versatile in that it may be used for manual hand washing, sprayed, broomed and pressure rinsed, or it may be applied by foaming equipment for maximum contact time on the surface prior to rinsing. Ideally suited for restaurants and commercial kitchens, as it contains no caustic that could damage painted or vinyl surfaces and cooking equipment. Use for all spray and wipe applications or manual scrubbing operations followed by a water rinse.

With low pressure foaming equipment, BREAKAWAY has been effectively used in meat rendering and packing areas in Supermarkets plus the areas behind the rotisserie and smallgoods sales counters.

Dilution

1 part BREAKAWAY 5 parts water	For extreme build-up of fat on extractor fans, filters, smokehouse carbon.	<u>Spray and wipe.</u> Spray, broom and hose flush. <u>Spray & pressure wash.</u> Hot water works better.
1 part BREAKAWAY 10 parts water	Initial cleaning of floors and equipment, soap scum in showers, burnt on food residues, tyre marks, filter pre-soaking Ideal for meat industry applications and Cool room cleaning.	Ideal foam-on dilution for rich, clinging foam. Pre-spray and pressure wash. (Agitate with a broom if required.) Hot water rinse if possible.

1 part BREAKAWAY 20 parts water	Meat and poultry trucks, fibreglass containers, wine tankers.	Foam or spray on. Water rinse after agitation. Work from bottom up.
1 part BREAKWAY 80 parts water	Maintenance mopping of kitchen floors. Light to medium soilage. Soak tank cleaning of glassware, utensils.	Mopping or general scrubbing or autoscrubbing. Hot water if possible.
