

Stainless Steel Cleaner

FOOD GRADE, HIGH SHINE, SMEAR FREE.
CONTAINS NO SILICONE OR DETERGENTS.

Totally odourless and water free

Here's the easy way to apply, easily spread or sprayed stainless steel cleaner for all brushed machined or ultra high polished stainless steel surfaces. Being high purity, it is water white and totally free of odour that could cause food taint.

Application

Apply by two methods. Spray and white or dry cloth application.

Dry cloth method

Apply direct from the container or to a dry lint free cloth (Do not use paper towels or "Chux" type cloths as these cause smearing). Only apply along the grain a small amount of STAINLESS STEEL CLEANER. Wipe all excess off with a dry part of the cloth. Buff to spread evenly and help shine the surface.

Spray and wipe method

Spray onto the surface with a dry lint-free cloth, rub along the grain and buff out excess cleaner. Buff as required.

Heavily soiled surfaces

Surfaces heavily soiled with grease and carbon should be cleaned with BREAKAWAY or OVEN & GRILL CLEANER before application of STAINLESS STEEL CLEANER.

Safety and Handling:

Keep lid sealed after use.
Combustible, do not use or spray near sources of open flame.

First Aid:

Eyes	Irrigate under running water.
Skin	Non irritant, wash or remove clothing where applicable
Inhalation	Move to fresh air. Seek medical advice
